

Astronomy

[Astrophysics \(http://www.sr.bham.ac.uk\)](http://www.sr.bham.ac.uk)

- Astrophysics over a wide range of scales and wavelengths, gravitational wave astronomy and precision tests of gravitational theories.

[Stars, the Sun and Exoplanets \(aka HiROS\) \(http://bison.ph.bham.ac.uk\)](http://bison.ph.bham.ac.uk)

- Using asteroseismology and helioseismology, from the NASA Kepler Mission and the Birmingham Solar-Oscillations Network (BiSON) to study the Sun and stars (including exoplanet hosts).

[X-Ray Binaries \(http://www.sr.bham.ac.uk/xrb/\)](http://www.sr.bham.ac.uk/xrb/)

- Research in Galactic X-ray Astronomy: neutron star and black hole binary systems.
