

Birmingham Fellows: Full Circle - Episode Six

Dr Zongbo Shi (School of Geography, Earth and Environmental Sciences) interviews Dr Kostas Nikolopoulos (School of Physics and Astronomy) about his experimental study of electroweak symmetry breaking, connected to the appearance of the **Higgs Boson** (<http://www.youtube.com/watch?v=ySPiFxLdpAc>).

Birmingham Fellows ([/staff/excellence/fellows/index.aspx](http://www.birmingham.ac.uk/staff/excellence/fellows/index.aspx)) are outstanding post-doctoral researchers at the University of Birmingham, recruited from around the world. Early-career researchers, they are poised to become the academic and research leaders of tomorrow.
