Wednesdays starting 24th April

3.00pm - 3.45pm

Year 7 & 8 (aged 11 - 13 years)

The school are looking for ambassadors with a Chemistry background to help support the science club with some one - off activities. They would really welcome some ideas and inspiration on chemistry related activities which will excite and engage the students. The pupils are studying Earth, Fire and Water this term, so they are looking at distillation, aluminum recycling, uses of limestone and concrete. The school are flexible on the activity as long as it has a chemistry element! They would ideally like for different ambassadors to visit the club each week.
