St Edmund Campion School (<http://www.stedcamp.bham.sch.uk>) B23 5XA

Yr 9 (13/14yrs old)

20-30 students

When you are 13 years old STEM subjects studied in school can seem independent from each other! In a real world career context this doesn't happen. In 50 minute long sessions you will be able to give a presentation about your job, how you got there and links to schooling. The rest of the time you will be able to give the students a hands on experience with activities that link to your area of expertise. These sessions will be repeated four times through the day.
