The Mighty Daphnia:
Past, Present and Future

Organising committee

Nadine Taylor, PhD (n.s.taylor@bham.ac.uk (<mailto:n.s.taylor@bham.ac.uk>))

Nadine's expertise is in the field of freshwater ecotoxicology using "-omics" techniques to investigate the effects of environmental stressors. Nadine joined the University of Birmingham in 2006.

Leda Mirbahai, PhD (l.mirbahai@bham.ac.uk (<mailto:l.mirbahai@bham.ac.uk>))

Leda's research focuses on toxicogenomics and the role of epigenetic mechanisms in regulation of transcription and disease. Leda joined the University of Birmingham in 2007.

Kay Van Damme, PhD (k.p.vandamme@bham.ac.uk (<mailto:k.p.vandamme@bham.ac.uk>))

Kay has been an active researcher in the field of Cladocera morphology and biodiversity (taxonomy and systematics) since 1996. Kay joined the University of Birmingham in 2012.

Scientific committee
