

Parkour and orang-utans - Dr Susannah Thorpe discusses how orang-utans get around the forest

Posted on Thursday 5th January 2012

In a recent Planet Earth podcast, Sue Nelson talks to **Dr Susannah Thorpe** (<http://www.birmingham.ac.uk/schools/biosciences/staff/profile.aspx?ReferenceId=9669&Name=dr-susannah-thorpe>) from the School of Biosciences about the similarities between the way Parkour, or free-running, athletes move about the urban environment and the way orang-utan get around their forest habitat.

Listen to the podcast below

A **full text transcript of this podcast is available here** (<http://planetearth.nerc.ac.uk/accessibility/transcripts.aspx?t=0&id=149>) from the PlanetEarth website.
