Academic staff in the School of Biosciences

Head of School

Professor Steve Busby (/schools/biosciences/staff/profile.aspx?ReferenceId=5078&Name=professor-steve-busby)

Professor of Biochemistry
Head of School

School of Biosciences

Research in Steve Busby's lab is concerned with understanding the molecular mechanisms that control gene expression in bacteria, with particular attention to studying the regulation of transcription initiation in *Escherichia coli*. Much of the recent work has focussed on the expression of virulence determinants in pathogenic strains.

Dr Jim Reynolds (/schools/biosciences/staff/profile.aspx?ReferenceId=9731&Name=dr-jim-reynolds)

Lecturer in Ornithology and Animal Conservation

School of Biosciences

Dr Jim Reynolds has worked on the reproductive biology and the nutritional ecology of birds from many different and diverse orders including passerines, geese, grouse, kingfishers and terns. He has worked in North America and in mainland Europe in investigating how human activity influences food availability and the resulting changes in avian reproductive investment and life histories. He ...
