Qualifications

PhD (Bham)
MA (Hull)
BA (Hull)
Member of the Chartered Institute of Purchasing and Supply (MCIPS)

Biography

Glyn Watson first joined the University of Birmingham as a doctoral candidate in 1992. Initially he was located in the Department of Politics and International Studies (POLSIS), where he taught on both its undergraduate and post-graduate programmes. He transferred to the Business School in 1994 and received his PhD in 1996.

During his time in the School his specialist area of research has been governance in business networks. He has focused both on the structural properties of networks and how these properties, in turn, shape and constrain firms' management choices. This research has led him to work closely with industry and in 2001 he was a joint recipient (along with Andrew Cox and Chris Lonsdale) of a £278,000 research grant from the EPSRC. The output of this research led to the joint-publication of two books and the research itself was assessed by the EPSRC as 'tending to outstanding/tending to internationally leading'. More recently, he received a £78,000 award (along with Chris Lonsdale) from the Oxford Radcliffe Hospital Trust. This award was to investigate whether or not the Trust was obtaining value for money from its partner suppliers.

Between 2004 and 2007 he was the Programme Director of the subject group's MBA in Strategy and Procurement Management where he lectures on the subject of International Business Environment.

In June 2009, he was appointed Director of Education for the Birmingham Business School.

Postgraduate supervision

Contracts and Incentives
Conflict and Conflict Resolution
Public Sector Purchasing
Management Theory

Research

Inter and Intra-Organisational Conflict, Economics and Law, Business Management Theory and Political Risk Analysis.

Publications
