### About

**Curriculum vitae** ([http://www.socscistaff.bham.ac.uk/ercolanim/Ercolani\\_Marco\\_CV\\_2014-07.pdf](http://www.socscistaff.bham.ac.uk/ercolanim/Ercolani_Marco_CV_2014-07.pdf))

**Personal Homepage** (<http://www.socscistaff.bham.ac.uk/ercolanim>)

I am an applied econometrician. I work on a range of socio-economic problems with particular focus on using large datasets to look into issues on health, ageing, and education. In addition to using standard econometric procedures, I program statistical packages to carry out non-standard regressions and tests. I enjoy working with colleagues on challenging topics of social and economic interest.

### Qualifications

B.A. Economics (University of Sussex)  
M.A. Econometrics (University of Essex)  
Ph.D. Economics (University of Essex)

### Teaching

Lecturer: Econ106 Quantitative Methods.  
Lecturer: Econ333A Labour Economics.  
Lecturer: EconG56 Introduction to Time Series Regression

### Postgraduate supervision

Labour Econometrics

- Kay HUANG
- Cansu UNVER (2nd supervisor)
- Marios DEMETRIADES (2nd supervisor)

### Doctoral research

**PhD title** PhD in Economics

### Research

**ECONOMICS GROUP:**

Econometrics

**RESEARCH INTERESTS:**

Applied econometrics, with experience in handling cross-section, panel and time-series data. General research interest is in 'bringing data to theories'. Current research interests include: Sick absence behaviour among UK workers, modelling seasonal and non-seasonal economic cycles; price changes at the introduction of the Euro; and contrasting labour market outcomes for younger and older workers.
