About

Inci has worked in the retail banking industry as a manager, and as a project manager for different technology and banking institutions and has been involved in a number of projects in change and restructuring. The title of her PhD was The Role of Interorganisational Tension and Conflict in Market Creation Practice. This thesis was supervised by Professor Mark Palmer, Dr. Ronan de Kervenoael and Dr. Luigi de Luca. She is now working on publishing her thesis in range of marketing, organisational and technology journal outlets.

Qualifications

PhD (2013), Aston Business School, Aston University, Birmingham, UK, Marketing Group

MSc. (2008) Sabancı University, Istanbul, Turkey, Administrative Sciences, Information Technologies Management

BA (1990) Marmara University, Istanbul, Turkey, Economical and Administrative Sciences, and Business Administration

- Second Major (1989 – 1990) Marmara University, Istanbul, Turkey, Economical and Administrative Sciences, Business Administration, Management of Foreign Relations and International Marketing

Biography

Within the prospect of the business, several projects such as new software/hardware selections, conversion from one software programme to another or a third party provider, providing the international and local relations with the authorities, launching new products, were successfully achieved.

Experiences in marketing and operations areas provided a better scope to accomplish these tasks.
