

Undergraduate study

(<http://www.birmingham.ac.uk/undergraduate-mds>) The School of Clinical and Experimental Medicine contributes to a wide range of **undergraduate** (<http://www.birmingham.ac.uk/undergraduate-mds>), **postgraduate taught** (</schools/cem/Education/postgraduate/pg-taught.aspx>), **postgraduate research** (</schools/cem/Education/postgraduate/pg-research.aspx>), **continuing professional development (CPD)** (</schools/cem/Education/cpd.aspx>) and short courses.

Our highly respected **MBChB** (</undergraduate/courses/med/medicine.aspx>) programme is one of the largest in the UK, takes 5 years to complete and produces around 400 qualified doctors every year who go on to life long careers in medicine and other health related professions. We also contribute to the **MBChB as a Graduate Entry Course** (</undergraduate/courses/med/medicine-grad-entry.aspx>) for graduates with a first degree in life sciences (40 students per year). This takes 4 years to complete.

The **BSc Biomedical Science** (</undergraduate/courses/med/biomedical-science.aspx>) course is available for those interested the physiology of the human body and the many diseases that affect humans. The course takes 3 years to complete.

We also offer a Pharmacy course; **MPharm (4-year)** (<http://www.birmingham.ac.uk/students/courses/undergraduate/med/pharmacy-4-year.aspx>). The programme has been designed specifically to meet the needs of the future pharmacist through a significant profile of clinical and patient facing teaching.

We are keen to promote tomorrow's clinician scientists and therefore particularly encourage our MBChB students to take an **intercalated BMedSc** (</undergraduate/courses/med/ClinicalScienceBMedSc-IntercalatedDegree.aspx>) degree, which can be completed after 2 years of MBChB studies followed by a 3rd year in the BMedSc course, before looping back to the clinical years of the MBChB course.

Programmes available in the School

Medicine and Surgery MBChB (</undergraduate/courses/med/medicine.aspx>)

Undergraduate degree course/programme Medicine and Surgery MBChB A100

Typical Offer: A*AA. Candidates should have predicted AAA including Biology and Chemistry (NB. Human Biology is acceptable as an alternative to Biology) (**More detailed entry** [<http://www.birmingham.ac.uk/undergraduate/courses/med/medicine.aspx?OpenSection=EntryRequirements>] **more...** [</undergraduate/courses/med/medicine.aspx>].]

Medicine and Surgery MBChB Graduate Entry Course (</undergraduate/courses/med/medicine-grad-entry.aspx>)

Undergraduate degree course/programme Medicine and Surgery MBChB Graduate Entry Course A101
