Honorary Clinical Lecturer

Cardiovascular and Respiratory Sciences

Dr Stavros Apostolakis is an Honorary Clinical Lecturer in the school of Clinical and Experimental Medicine, University of Birmingham.

Dr Apostolakis' time is currently devoted to clinical and research activities as part of Professor Gregory Lip's and Professor Paulus Kirchhof's research groups in the Centre for Cardiovascular Sciences.

NIHR Clinical Lecturer in Cardiovascular Medicine

Cardiovascular and Respiratory Sciences

Amitava Banerjee is NIHR Clinical Lecturer in Cardiovascular Medicine and Honorary Specialist Registrar in Cardiology.

Ami has over 40 scientific publications, including review articles and book chapters, in the fields of epidemiology, cardiology and global health. His epidemiology work has largely focused on the sex-specific effects of family history of myocardial ...

Sampson Gamgee Professor of Vascular Surgery and Director of Quality Assurance and Enhancement

Cardiovascular and Respiratory Sciences

As the Sampson Gamgee Professor of Vascular Surgery Professor Bradbury leads the delivery of an innovative, evidence-based, high quality vascular and endovascular academic surgical service for both arterial and venous disease at the Heart of England NHS Foundation Trust (HEFT). He also undertakes clinical and basic science research in arterial and venous disease

Birmingham Fellow

Cardiovascular and Respiratory Sciences

Alex is a Birmingham Fellow in the School of Clinical and Experimental Medicine. Alex has a strong background in different models of thrombosis, inflammation and microscopy. His main research interests are mechanisms of cardiovascular diseases, such as deep vein thrombosis and stroke, and identifying new targets to prevent and treat these disorders.

Alex ...

Research Fellow

Cardiovascular and Respiratory Sciences

Myriam is a post-doctoral Research fellow in Professor Ed Rainger group. She is interested in understanding the recruitment of leukocytes to endothelial cells during inflammation. Her PhD studies in the field lead to the identification of a novel immune regulatory pathway controlling the recruitment of T-lymphocytes during inflammation. This work has attracted a number of grants and ...

Senior Lecturer in Medical Sciences

Cardiovascular and Respiratory Sciences

Alex Conner has a degree and PhD in Molecular and Biological Sciences. His research interests lie in the structure and function of large membrane proteins. This involves using cell and molecular biology techniques with an emphasis on understanding the regulation of aquaporin water channels and the ligand-binding and activation of family B G protein-coupled receptors (GPCRs). Clinical Lecturer

Cardiovascular and Respiratory Sciences

Nicky Edwards is a Clinical Lecturer in Cardiovascular Medicine. She splits her time as a clinical specialist registrar in cardiology at the Queen Elizabeth Hospital Birmingham and clinical researcher at the University of Birmingham and the NIHR Wellcome Clinical Research Facility. Her primary research interests involve the use of advanced cardiac imaging modalities (cardiac MRI and ...
