

## Research degrees

### Postgraduate research degrees

#### **[Chemical Engineering PhD \(/postgraduate/courses/research/chemical-engineering/chemical-engineering-phd.aspx\)](/postgraduate/courses/research/chemical-engineering/chemical-engineering-phd.aspx)**

We offer a broad range of research specialisms in Chemical Engineering, with specialist pathways in: **[Bioprocessing \(/postgraduate/courses/research/chemical-engineering/bioprocessing-phd.aspx\)](/postgraduate/courses/research/chemical-engineering/bioprocessing-phd.aspx)**, **[Energy and Chemical Industries \(/postgraduate/courses/research/chemical-engineering/energy-chemical-engineering-phd.aspx\)](/postgraduate/courses/research/chemical-engineering/energy-chemical-engineering-phd.aspx)**, **[Food, Health and Nutrition \(/postgraduate/courses/research/chemical-engineering/food-processing-phd.aspx\)](/postgraduate/courses/research/chemical-engineering/food-processing-phd.aspx)**, and **[Speciality Products \(/postgraduate/courses/research/chemical-engineering/speciality-products-phd.aspx\)](/postgraduate/courses/research/chemical-engineering/speciality-products-phd.aspx)**.
