

## Research Vacancies and Studentships

The School of Chemical Engineering is one of the leading Schools in the country and a recent recipient of a Queens Anniversary Prize for Higher Education in recognition of its pioneering research and outstanding track record in collaborative research and training within the UK.

Listed below are some of the PhD research opportunities available in the [School of Chemical Engineering \(/schools/chemical-engineering/index.aspx\)](/schools/chemical-engineering/index.aspx). Click on a project title for more information on the project and details of how to apply for a place.

We also provide [EngD studentships \(/schools/chemical-engineering/postgraduate/eng-d/index.aspx\)](/schools/chemical-engineering/postgraduate/eng-d/index.aspx) and [MRes research projects \(/postgraduate/courses/combined/chemical-engineering/chemical-engineering-science-mres.aspx\)](/postgraduate/courses/combined/chemical-engineering/chemical-engineering-science-mres.aspx). Please go to the linked pages for more information.
