

New Structural Engineering and Practice Masters/Msc

Posted on Wednesday 8th January 2014

School of Civil Engineering launches new MSc programme in Structural Engineering and Practice

The School of Civil Engineering is proud to add to its already impressive portfolio of Postgraduate taught programmes with a programme aimed at future civil engineering leaders. The brand-new MSc in Structural Engineering and Practice will be offered for the first time in September 2014 and will address the demand for highly skilled structural engineers in the civil engineering industry.

The programme will appeal to civil engineering and related graduates wishing to structural engineering and practice within a civil engineering context.
