About

Sandy has taught Science and Chemistry to A-level in secondary schools for 14 years. This included a secondment to the Royal Society of Chemistry as a School Teacher Fellow as part of the 'Chemistry for Our Future' project looking at strategies to overcome secondary to higher education transition issues. Prior to his appointment by the University of Birmingham Sandy was a Secondary Science Consultant for Birmingham Local Authority responsible for developing the teaching and learning of science in schools.

Qualifications

- PGCE
- PhD
- BSc

Teaching

Sandy teaches on the Science PGDipEd course with a particular responsibility for the Chemistry group. He is also a Whole School Issues Tutor.
