University of Birmingham
Edgbaston, Birmingham
B15 2TT, United Kingdom

About

Ian completed his PhD in psychology in 1987; then taught in secondary schools in various roles including ICT co-ordinator, head of science and senior teacher. He is currently a Lecturer and leads the [Education for Health Professionals \(/postgraduate/courses/cpd/edu/edu-health-professionals.aspx\)](#) programme. In addition he teaches quantitative methods including factor analysis and provides a statistical advice service for the school. Much of his time is devoted to externally funded research.

Qualifications

- PhD
- PGCE
- BA. (Hons)

Postgraduate supervision

Ian has the following research interests:

Educational applications of quantitative methodologies including assessment and trials; education of doctors and other health professionals.

Read the profile for one of his current postgraduate students who is researching [Key Teacher-Student Interpersonal Relationship Dynamics Influential upon Children's Engagement with Science: A Self-Determination Theory Perspective \(/schools/education/courses/postgraduate-research/profiles/roger-wood.aspx\)](#)

PhD opportunities

Research

Most of his research is based in the Centre for Research in Medical and Dental Education (CRMDE) on projects relating to undergraduate, postgraduate and continuing education of health professionals. In addition, he is the trial coordinator for two projects linked with The Jubilee Centre for Character and Values.

Ian has been involved in researching pupil attainment, out-of-school educational provision and experiences of disabled students. Since 2004, he has been the lead researcher for eight projects (226k); and has been involved in a further 18 projects (£1.5m), principally for data analysis. Although specializing in quantitative analysis, he has experience in all aspects of research including project management and design.
