

Geology Club

The Geology Club is open to all Earth Science and Geology alumni of the University of Birmingham. We have a yearly publication *The Geology Club Newsletter*, which is published in the spring or summer, then an e-newsletter update on new articles and stories (by email).

To join the Geology Club, email alumnioffice@contacts.bham.ac.uk (<mailto:alumnioffice@contacts.bham.ac.uk>) tell us the year you graduated and which degree. You can sign up for email alerts about alumni news stories and a paper newsletter sent to your current address. We also welcome contributions to these news newsletters from alumni.
