School of Geography, Earth and Environmental Sciences
University of Birmingham
Edgbaston
Birmingham
B15 2TT
UK

Biography

- 1968-75 Durham University - BSc Geology, PhD South Greenland Alkali Igneous Rocks
- 1975-78 Aberdeen University - Research Assistant working on East Greenland Tertiary Igneous Rocks
- 1978-9 British National Oil Corporation - Geologist
- 1979-88 Aston University - Lecturer in Department of Geological Sciences
- 1988-present Birmingham University School of Earth Sciences - Lecturer/Senior Lecturer

Research

Research group

- Geosystems

Research interests

- Alkali rock genesis and associated metasomatic processes
- Layered igneous rocks
- Tertiary development of the igneous rocks of East Greenland

Current / recent research

- Mineral chemistry changes during alkali metasomatism
- Geochemistry of East Greenland Tertiary Lamprophyres
