The Institute of Local Government Studies (INLOGOV) at the University of Birmingham is the leading academic centre for research and teaching on democratic local governance and strategic public management in the UK.

As well as undertaking research and consultancy, we deliver in-house and campus based professional development and postgraduate degrees. We also contribute ideas, opinions and theories to help public servants with their roles and to help them shape the future of public services too.

We want to ensure you and your colleagues are able to make use of our ideas and engage with us in a way that's convenient, accessible and most importantly useful to you. As someone who works in this sector, we would be grateful to hear your views.
