Local Government Studies is the leading journal for the study of local politics, policy, public administration and management and governance. The journal, which will publish its 40th volume in 2014, has established itself as an influential forum for critical dialogue and exchange on local government and a vital resource for academics, politicians, policy makers and practitioners internationally.

The editors welcome submissions in this field, particularly work of a comparative, methodologically innovative and theoretically challenging nature.

Peer review

All articles published in Local Government Studies have undergone rigorous peer review.
