

Have a say

Service Users and Carers - please contact us – we want to hear your views.

Hearing patients and carers ideas, views and experiences of nursing is essential to nursing care, education and research quality. Members of the public have a powerful influence on the success of our nursing program, and on our nursing students values, behaviours and attitudes towards caring.

We want to listen and discuss nursing with people who have used all types of health service, their carers and families are also warmly welcome.

Please note if your comments are related to the care or service you received and you would like to feed this back to the service providers you should contact

the relevant organisation, for example the hospital or NHS Trust or PALS, the **Patient Advice and Liaison Service (<http://www.pals.nhs.uk>)**

Please fill out our short questionnaire:

Have A Say

If you would like to have a say about nursing and/or be involved in our nursing programme please fill in this questionnaire

Are you a Patient or Carer?

Patient Carer

What are the nursing qualities and skills you most value? Can you give an example?

From your experience, are there any qualities or skills you feel should be improved or are missing?

What do you think should be the main focus of nurse education?

What are the nursing values you believe are most important? Can you give an example?

What are the behaviours of nurses you believe are the most important to patients and their carers? Can you give an example?

What experience(s) of nursing and/or health care do you have that would be useful for nursing students to know?

How do you think nurse education should change?

Do you have any other comments you would like to share?
