### Doctoral research

**PhD title** A Reconstruction of the Ritual of the Ished Tree Scene in Ancient Egypt

**Supervisor** [Dr Martin Bommas \(/staff/profiles/caha/bommas-martin.aspx\)](/staff/profiles/caha/bommas-martin.aspx)

### Research

This thesis looks at the texts and iconography of ancient Egyptian temples containing Ished Tree Scenes to reconstruct the steps of the ritual for the pharaoh's coronation. It also looks at the scenes and the specific temples to see which information is relayed in the images and the texts to see if there is a difference in information based on medium or type of temple.

### Other activities

- University of Arizona, Latin tutor 1989–1991
- University of Memphis, Graduate-level Archaeological Photography 1998–2000
- Pima Community College, Undergraduate-level Art History and Art Appreciation 2002–2010
- Kaplan University, Undergraduate-level Humanities 2009–2011

#### Other activities:

- American Research Center in Egypt, member
- Sky Island Alliance, certified wildlife tracker
- The Editorial Freelancers' Association, member
