Senior Lecturer

School of Immunity and Infection

Paul Badenhorst is a Senior Lecturer in the School of Immunity and Infection.

Paul's field of expertise is in Epigenetics and Development. Paul uses both the Drosophila model system and human cells to investigate how chromatin modifying complexes regulate gene expression to control developmental pathways. He has received major grant funding from Cancer ...

Birmingham Fellow

School of Immunity and Infection

Dalan Bailey is a University of Birmingham Research Fellow working on the molecular biology of RNA viruses. He has over 10 years' experience working on the molecular determinants of virulence, with particular focus on morbilliviruses and noroviruses. Since 2005 he has published over 20 manuscripts in this area including publications in PLOS Pathogens and the Journal of Virology.

Wellcome Trust Clinician Scientist, Honorary Consultant in Rheumatology

School of Immunity and Infection

Francesca Barone is a Wellcome Trust scientist working as Rheumatologist Consultant in UHB and Sandwell and West Birmingham Trusts.

Her main interest is in understanding the relationship between stromal cells and leukocyte in the development of chronic inflammatory process.

[Dr Andrew Bentall \(/staff/profiles/iandi/bentall-andrew.aspx\)](/staff/profiles/iandi/bentall-andrew.aspx)

NIHR Clinical Lecturer in Nephrology

School of Immunity and Infection

As a lecturer in nephrology, Andrew Bentall balances his academic responsibilities at the University with clinical practice at the University Hospital Birmingham.

Currently research activities are directed at identifying high risk kidney transplant recipients particularly ABO incompatible and HLA incompatible transplant candidates.
