[Dr Lucy Walker \(/staff/profiles/iandi/walker-lucy.aspx\)](/staff/profiles/iandi/walker-lucy.aspx)

Honorary Reader in Immune Regulation and Autoimmunity

School of Immunity and Infection

Lucy Walker holds an MRC Senior Non-Clinical Fellowship and is a Reader in Immune Regulation and Autoimmunity in the School of Immunity & Infection.

Lucy has published extensively in internationally recognised scientific journals in the area of T cell activation and regulation, particularly in the context of Type 1 Diabetes. She has received substantial ...

[Dr Graham Wallace \(/staff/profiles/iandi/wallace-graham.aspx\)](/staff/profiles/iandi/wallace-graham.aspx)

Senior Lecturer in Immunity and Infection

School of Immunity and Infection

Graham Wallace is a Senior Lecturer in the School of Immunity and Infection.

Graham has published over 75 research papers in scientific journals as well as reviews in the fields of ocular immunology, Behcet's Disease and immunogenetics. He has received grants from Guide Dogs for the Blind Association, Fight for Sight, and the Wellcome Trust.

[Dr Mark Webber \(/staff/profiles/iandi/webber-mark.aspx\)](/staff/profiles/iandi/webber-mark.aspx)

Senior Research Fellow

School of Immunity and Infection

Marks research is focused on antimicrobial action and resistance with specific interests in bacterial evolution in response to stress, mechanisms of biofilm formation and transferrable resistance as well as numerous other smaller areas of study. Mark co-heads the Antimicrobials Research Group with Professor Laura Piddock.

[Dr Chris Weston \(/staff/profiles/iandi/weston-chris.aspx\)](/staff/profiles/iandi/weston-chris.aspx)

Post-Doctoral Research Fellow

School of Immunity and Infection

Chris Weston is a post-doctoral research fellow based in the Centre for Liver Research who has received grant funding from the MRC and the Wellcome Trust.

His research focus is the regulation of immune mediated injury and fibrosis in the human liver, with a view to establish the role that amine oxidases such as vascular adhesion protein-1 (VAP-1) and the lysyl oxidase family (LOX, ...

[Mr Geraint Williams \(/staff/profiles/iandi/williams-geraint.aspx\)](/staff/profiles/iandi/williams-geraint.aspx)

Honorary Clinical Research Fellow

School of Immunity and Infection

Geraint Williams is an honorary clinical research fellow at the School of Immunity and Infection, College of Medical and Dental Sciences and currently undertaking a clinical research fellowship at the Singapore Eye Research Institute (SERI). His sub-specialist area is in cornea and external disease, with an interest in ocular surface immunity and infection. He was awarded a Wellcome Trust ...

[Dr David Withers \(/staff/profiles/iandi/withers-david.aspx\)](/staff/profiles/iandi/withers-david.aspx)

Wellcome Trust Research Fellow

School of Immunity and Infection

David Withers is a Wellcome Trust funded Research Fellow

His work is focused on CD4 T cell responses and the secondary lymphoid tissue within which these responses are initiated.
