[Dr Jonathan Sherlock \(/staff/profiles/iandi/sherlock-jonathan.aspx\)](/staff/profiles/iandi/sherlock-jonathan.aspx)

Clinical Lecturer in Rheumatology

School of Immunity and Infection

Jonathan Sherlock is Clinical Lecturer in Rheumatology and works on the role of inflammatory cytokines in spondyloarthritis in the context of development of better therapeutics for these conditions.

[Dr Stuart Smith \(/staff/profiles/iandi/smith-stuart.aspx\)](/staff/profiles/iandi/smith-stuart.aspx)

Clinical Lecturer in Renal Medicine

School of Immunity and Infection

Lecturing in renal medicine Stuart Smith has clinical practice responsibilities at the Queen Elizabeth Hospital renal unit while also engaging in laboratory based research and teaching academic and clinical skills to medical undergraduates.

His current research activities focus on chronic kidney disease, stromal cell biology and the pathogenesis of renal fibrosis.

[Dr Rebecca Jayne Stack \(/staff/profiles/iandi/stack-rebecca.aspx\)](/staff/profiles/iandi/stack-rebecca.aspx)

Research Fellow

School of Immunity and Infection

Dr Rebecca Jayne Stack is a Senior Research Fellow in the Centre for Translational Inflammation Research. Rebecca is a Psychologist specialising in behavioural medicine and is registered with the British Psychological Society. Her research focuses on behavioural medicine, micro health economics and illness behaviour, particularly focusing on the way people make decisions to seek help, use ...

[Dr Zania Stamataki \(/staff/profiles/iandi/stamataki-zania.aspx\)](/staff/profiles/iandi/stamataki-zania.aspx)

Royal Society Dorothy Hodgkin Fellow

School of Immunity and Infection

Zania Stamataki is a viral immunologist with an interest in persistent infections and chronic inflammation. She has taken up a 5-year Royal Society

Dorothy Hodgkin Research fellowship in 2011, leading to an academic position.

[Dr Mark Webber \(/staff/profiles/iandi/webber-mark.aspx\)](/staff/profiles/iandi/webber-mark.aspx)

Senior Research Fellow

School of Immunity and Infection

Marks research is focused on antimicrobial action and resistance with specific interests in bacterial evolution in response to stress, mechanisms of biofilm formation and transferrable resistance as well as numerous other smaller areas of study. Mark co-heads the Antimicrobials Research Group with Professor Laura Piddock.
