

Undergraduate study

Teaching is delivered on the four undergraduate courses run by the College for medical students (**[Medicine and Surgery MBChB \(/undergraduate/courses/med/medicine.aspx\)](/undergraduate/courses/med/medicine.aspx)**, **[Medicine and Surgery MBChB Graduate Entry Course \(/undergraduate/courses/med/medicine-grad-entry.aspx\)](/undergraduate/courses/med/medicine-grad-entry.aspx)**), **[Dentists \(Dental Surgery BDS \(/undergraduate/courses/med/dental-surgery.aspx\)\)](/undergraduate/courses/med/dental-surgery.aspx)**, and **[Scientists \(Biomedical Science BSc \(/undergraduate/courses/med/biomedical-science.aspx\)\)](/undergraduate/courses/med/biomedical-science.aspx)**. The School is responsible for the organisation and delivery of major teaching programmes in anatomy, (including prosection sessions in the newly refurbished prosectorium), and Immunology and Infection.

Staff in the School also undertake clinical teaching in Immunology, Infection, Virology, Hepatology, Nephrology, Rheumatology, Ophthalmology, Cell and Molecular biology.

Clinical academics within the School have close links with local hospital Trusts and with other health agencies including the University of Birmingham Hospital Foundation Trust, the Sandwell and West Birmingham Hospital Trusts, the Heart of England Foundation Trust, the Health Protection Agency and the National Blood Transfusion Service.

Programmes available in the School:

[Immunity and Infection PhD/MD/MSc by Research \(/postgraduate/courses/research/med/immunity-infection.aspx\)](/postgraduate/courses/research/med/immunity-infection.aspx)

Postgraduate Doctoral research Full time, part time

We have a large community of academic, research and support staff and postgraduate students, and an annual turnover of approximately £8 million support for research. Our research is grouped into the following four themes: Immune Regulation; Inflammation and **[more... \(/postgraduate/courses/research/med/immunity-infection.aspx\)](/postgraduate/courses/research/med/immunity-infection.aspx)**

[Musculoskeletal Ageing and Health - MSc/PG Dip \(/postgraduate/courses/taught/med/musculoskeletal-ageing.aspx\)](/postgraduate/courses/taught/med/musculoskeletal-ageing.aspx)

Postgraduate Continuing professional development, taught Full time, part time

With rapidly changing demographics, falling birth rate and increasing life expectancy, we are an ageing population. However, healthy lifespan is not keeping pace with increased longevity and people are living longer but not necessarily in good health.
