

LLB Legal Issues in Health Care

Module leader: [Professor Jean V. McHale \(/staff/profiles/law/mchale-jean.aspx\)](/staff/profiles/law/mchale-jean.aspx)

Module description:

The module examines the interface between legal regulation and health care practice. By reference to a series of topical areas it will explore legal and ethical regulatory challenges and dilemmas. Typical issues which will be considered will include:

- Compensation for clinical malpractice
 - Consent and capacity
 - Regulation of medical genetic technologies
 - Regulation of reproductive technologies
-
- Dilemmas at the end of life and organ transplantation.
