

Pro Bono Case Work and Research

The Pro Bono Casework and Research Assistance Group provides student researchers and caseworkers to assist organisations and charities within the legal community. The projects vary and are dependent upon the requests for help.

Previous work includes a collaborative analysis of recent revisions to Health and Safety Legislation through No 5 Chambers and a research project for the Birmingham Law Society Pro Bono Committee.

Please contact Birmingham PBG for more information or to enquire as to whether we can assist your organisation. Full contact details can be found on the [**About Us page.**](#)
