

100% satisfaction in the National Student Survey 2013

Posted on Friday 16th August 2013

The National Student Survey (<http://www.thestudentsurvey.com/>) (NSS) asks mainly final year undergraduates to provide feedback on their courses in a nationally recognised format.

There are 23 questions, relating to different aspects of the student learning experience including teaching, assessment methods, academic support, and learning resources. As in 2012, also this year 100% of BA History of Art finalists answered that they were satisfied with the quality of the course. This result put our course in the **top three** in the country.
