

## Annual Mathematics Teachers Conference

Each summer the School of Mathematics runs a relaxed one-day conference aimed at A-level teachers. Participation is free with tea, coffee and a buffet lunch provided. There is plenty of opportunity to interact with university staff and other teachers.

The conference takes place in the School of Mathematics, Watson Building (Building R15 on the University Campus map).

The University has excellent transport links, it has its own train station (University Station), and travel instructions can be found on the University's [Maps and Directions \(http://www.about.bham.ac.uk/maps/\)](http://www.about.bham.ac.uk/maps/) page.

Please contact the [Outreach Officer \(/schools/mathematics/outreach/outreach-contact.aspx\)](http://www.bham.ac.uk/schools/mathematics/outreach/outreach-contact.aspx) for more information.
