

Pre-Masters: Certificate Mathematics

This programme is ideal for students from either the UK or overseas wishing to study advanced mathematics at the University of Birmingham. It provides training in advanced undergraduate mathematics appropriate to professional development or preparation for a master's degree from our MSc or MRes programmes.

The programme is one year in duration and is tailored to the individual student with a broad range of undergraduate courses available to produce a bespoke programme of study.

The ideal candidate for this programme will have a good understanding of mathematics gained in an undergraduate course with a high mathematical content.
