

Mechanical Engineering Professor helps to bring IEEE conference to Birmingham

Posted on Monday 9th January 2012

The Institute of Electrical and Electronics Engineers Nanotechnology Conference 2012 will be held at the **ICC** (<http://www.theicc.co.uk/>) thanks to a successful bid put together by **Professor Kyle Jiang** (</staff/profiles/mechanical/jiang-kyle.aspx>) (School of Mechanical Engineering Research Co-ordinator and Professor of Nanotechnology) and Catherine Newhall-Caiger (ICC Business Development Director).

IEEE NANO 2012 will bring together 500 leading scientists and engineers from around the world, facilitating elite research collaboration whilst helping to promote Birmingham as a first choice city for scientific development. Professor Jiang will also chair the conference, due to be held on 20-23 August.
