

Supervision

We believe in continuing to support our students in developing their REBT skills. The Centre for Rational Emotive Behaviour Therapy provides a peer supervision group for everybody who has completed a Primary, Advanced, or Associate Fellowship Certificate in REBT.

The Peer supervision group meets once a month at the University of Birmingham, usually on the first Friday of every month.

This group is free to attend.

The peer supervision group is always led by one or more Certified REBT supervisor who has trained at the Albert Ellis Institute.

Please contact **Richard Bennett** (</staff/profiles/psychology/bennett-richard.aspx>) for details.
