About

Title of PhD: Stuttering and Silent Reading

Supervisor: [Dr Steven Frisson \(/staff/profiles/psychology/frisson-steven.aspx\)](/staff/profiles/psychology/frisson-steven.aspx)

Chloé Corcoran is interested in the underlying factors which cause stuttering, particularly cognitive/linguistic factors which arise before overt articulation. This work involves the use of eye-tracking methodology to examine the silent reading processes of people who stutter compared to people who do not.

Qualifications

- B.Sc. Hons. Psychology
- M.Res. Psychology

Biography

Chloé Corcoran has an Upper Second Class B.Sc. Hons in Psychology from the University of Birmingham. She won a partial Scholarship to complete a Masters of Research in Psychology also at the University of Birmingham, in which she obtained a Distinction. She won a complete Scholarship from the University of Birmingham for her Ph.D. entitled "Stuttering and Silent Reading" under the supervision of Dr. Steven Frisson.

Research

Stuttering; silent reading processes; eye movements during reading

Research group

Language and Cognition

Other activities
