Professor and Chair of Cognitive Neuroscience
Head of School

School of Psychology

Professor Shapiro in collaboration with other colleagues published the first paper on the 'attentional blink' phenomenon, which has attracted great interest on the part of many scientists. The original publication has been cited over 1000 times and approximately 500 reports on the same topic have followed from it. He employs a wide range of neuroscience approaches and tools in his ...

Reader in Imaging Neuroscience
Director of the Birmingham University Imaging Centre

School of Psychology

Dr Bagshaw's main interest is in developing and applying non-invasive neuroimaging methods to questions in clinical and behavioural neuroscience. Current work in the **Multimodal Integration Group (MIG) (/research/activity/psychology/mig/index.aspx)** focuses on using EEG-fMRI to understand the influence of ongoing brain activity on evoked and behavioural responses, and to examine the localisation and functional significance of ...
