Professor and Chair of Cognitive Neuroscience
Head of School

School of Psychology

Professor Shapiro in collaboration with other colleagues published the first paper on the 'attentional blink' phenomenon, which has attracted great interest on the part of many scientists. The original publication has been cited over 1000 times and approximately 500 reports on the same topic have followed from it. He employs a wide range of neuroscience approaches and tools in his ...

Senior Lecturer in Forensic Psychology
Assistant Director, Centre for Forensic and Criminological Psychology

School of Psychology

Catherine Hamilton-Giachritsis is an HCPC registered Forensic Psychologist and Clinical Psychologist with an interest in child maltreatment and family violence, including risk assessment, impact of early institutionalisation and long-term outcomes (e.g., psychopathology and/or resilience). She also studies vulnerability to online grooming and impact on young people.

Research Associate

School of Psychology

I have a broad interest in the cognitive neuroscience of social behaviour, particularly in terms of how executive processes contribute to Theory of Mind (ToM), and the neural basis of these functional processes. Working with Prof Ian Apperly and Dr Peter Hansen, I have been using structural and functional neuroimaging techniques, including DTI and fMRI, in combination with ...

Research Fellow in Social Neurosciences

School of Psychology

Dr Honisch is broadly interested in human movement timing and coordination. She is affiliated with the **Sensory Motor Neuroscience (SyMoN) lab** (</facilities/symon/index.aspx>) and currently works with Dr Kimberly Quinn (Social Psychologist). Her present work investigates theoretical models of interpersonal behavioural synchronisation. Dr Honisch also conducts research on multi-person synchronisation in expert dancers and ...
