About

[\(/university/colleges/les/research-gallery/suzanne-higgs.aspx\)](/university/colleges/les/research-gallery/suzanne-higgs.aspx) I am a research psychologist interested in the study of motivated behaviours like eating and drug taking.

Qualifications

BA, MA (Oxon) PhD (Durham)

Biography

I have a degree in Psychology, Physiology and Philosophy from Oxford University. My PhD work was conducted at the University of Durham on the psychopharmacology of appetite under the supervision of Steve Cooper. I completed post doctoral work at Oxford University on the neural bases of learning and memory with Nicholas Rawlins and Susan Greenfield and was then appointed to a lectureship in psychology at the University of Birmingham. My current position is Reader in the Psychobiology of Appetite.

Teaching

I teach a level 3 module on the psychogy of eating and I am the Head of Education in Psychology

Postgraduate supervision

Current post graduate students:

- Jason Thomas
- Iraida Neira
- Angela Meadows
- Panagiota Kaisari
- Jinyu Lui

Research

ResearcherID: A-9632-2008 (<http://www.researcherid.com.ezproxyd.bham.ac.uk/rid/A-9632-2008>)

Research Group

Behavioural Neuroscience

Research Interests

I am interested in psychobiological influences on appetite, in particular the role of learning and memory in eating behaviour and drug taking and the potential role of these factors in the development of obesity and drug addiction. We ask questions about how memory for recently consumed foods affects decisions about future food intake and the factors that determine remembered liking for foods. We are also interested in social influences on eating. This work has been funded by the ESRC, BBSRC, Leverhulme Trust, MRC and Alcohol Education Research Council.

Other activities

President Elect of the Society for the Study of Ingestive Behaviour (2014)

International Life Sciences Institute Europe: Eating Behaviour and Energy Balance, Member of expert group on sweeteners

Member of Danish Council for Strategic Research

Member of Food cognition and Behaviour Assessment Committee, Netherlands Organisation for Scientific Research
