About

I am interested in investigating the relationships between the brain, cognition and behaviour.

Qualifications

BSc in Psychology, PhD: Mapping a Pathway from Genes to Behaviour in Prader-Willi Syndrome. For more information please see [Kate Woodcock's personal homepage \(http://www.katewoodcock.com/\)](http://www.katewoodcock.com/).

Biography

I completed my undergraduate degree in Psychology at the University of Birmingham between September 2001 and July 2004. Following just over one year of voluntary work for various charities in South America, including Save the Children El Alto, Bolivia, I completed a PhD between October 2005 and November 2008. Since then I have been working as a Research Fellow at the Cerebra Centre for Neurodevelopmental Disorders. In March 2010 I will be starting a Marie Curie Fellowship at the University of Peking, China. For more information please see [Kate Woodcock's personal homepage \(http://www.katewoodcock.com/\)](http://www.katewoodcock.com/).

Research

I am interested in understanding the relationships between the brain, cognition and behaviour, particularly in clinical populations. For more information please see [Kate Woodcock's personal homepage \(http://www.katewoodcock.com/\)](http://www.katewoodcock.com/).

Publications

For publications please see [Kate Woodcock's personal homepage \(http://www.katewoodcock.com/\)](http://www.katewoodcock.com/).
