

Exploring alternative concepts of God

This project is conducted by Andrei Buckareff (Marist College, USA) and [Yujin Nagasawa \(/staff/profiles/philosophy/nagasawa-yujin.aspx\)](/staff/profiles/philosophy/nagasawa-yujin.aspx) and funded by the John Templeton Foundation.

It aims to shed light on, explore, and evaluate alternatives to the classical concept of God (e.g., pantheism, panentheism, etc.), which are often overlooked in contemporary debates among analytic philosophers on the nature and existence of God.
