

Joan Durose, HSMC (2006-2009)

I was a Senior Fellow at HSMC from August 2006 until August 2009 and can't believe it was only three years! Since leaving I have mainly worked with HSMC as an Associate contributing to some teaching, research (both of which I am still doing) and running Leadership Programmes.

I think HSMC made, and still makes, a very strong contribution to leadership development in the NHS through specific programmes, substantial research and academic development of NHS leaders.
