

Applied Sport Science in Football

A free one-day Doctoral researcher-led conference

Saturday 27 April 2013

School of Sport and Exercise Sciences, University of Birmingham

The School of Sport, Exercise and Rehabilitation Sciences at the University of Birmingham is honoured to be hosting a conference on applied sport science in Football.

The aim of the conference is to transfer current scientific knowledge from sport science research and professional football to experts, coaches, players and students working in football. Our keynote speakers are well-respected sport scientists and experts with many years of experience in football. They will present key areas in football for performance improvements and injury prevention.

Target audience is all current and future football experts, coaches, sport scientists, students, football players and all others interested in football. All lectures will be appropriate for a wider audience with emphasis on practical implications. Intended outcome of the conference will be to understand the role of inter- and multi-disciplinary scientific research for football performance enhancements.

The conference will be **FREE** for delegates to attend.

- You will be provided with lunch and coffee during the breaks.
- This is a whole day event

[Programme for the day can be found here \(/schools/sport-exercise/research/conferences/football-science/speakers.aspx#programme\)](/schools/sport-exercise/research/conferences/football-science/speakers.aspx#programme)
