

## Teaching quality

Our teaching was rated as excellent by the Higher Education Funding Council for England in their assessment of teaching quality in UK universities. Particular attention is paid to developing generic learning skills in addition to specific subject knowledge. We believe that attention to these skills is one reason why our graduates are so attractive to potential employers.

“Quality Assurance Agency for Higher Education "...strong influence of staff research on the curriculum which is apparent at all levels and through projects, allowing students to develop and demonstrate research skills"

In order to help you learn we use a range of different teaching methods including formal lectures, small group seminars, computer based learning, and practical classes in both laboratories and the sports centre.

“Quality Assurance Agency for Higher Education "High-quality teaching by committed and well-qualified staff, supported by comprehensive teaching materials"

Through the diversity of our delivery and the commitment of our staff to your learning we have received excellent feedback form our students

“2012 National Student Survey "96% of students said that staff are good at explaining things and 94% are enthusiastic about what they are teaching"

Studying with us you can be sure that you will have access to all the opportunities to learn that we can provide and that staff will be committed to supporting you throughout your time here.
