

Go Green Week

Students here at the university organise a week of free events across the campus to promote sustainability and carbon reduction. In the past there have been debates over climate change, a slow bike race in front of the iconic Aston Webb building and an UV party at the Vale BarOne. Every day brings new events linked together via specific themes aimed to raise awareness on environmental sustainability.

Go Green Week 2014 will be from 10th -16th February.
