

Vice Chancellor's welcome

Universities create huge impact on our daily lives, from groundbreaking research to student volunteering. Our Vice-Chancellor and Principal, Professor David Eastwood, discusses the University's impact and achievements to date and our ambitions for the future.

Professor David Eastwood, Vice-Chancellor and Principal "We are already established as being amongst the world's top one hundred universities but we want to rise further and be amongst the very few premier global universities. We will achieve this through the excellence of our research and teaching, as well as the quality of our staff and the exceptional nature of our graduates."
