About

Dr. Zhang joined the Department of Marketing as a lecturer in August 2012. Prior to that he was a research fellow in the Intelligent Modelling & Analysis Research Group, School of Computer Science, University of Nottingham. He gained his PhD from the Electricity Policy Research Group, Judge Business School, University of Cambridge. His research interests are in the areas of complexity science and agent-based modelling for the energy market. During his post-doc period in Nottingham, Dr. Zhang led the agent-based simulation part in an EPSRC funded research project *Future Energy Decision Making for Cities—Can Complexity Science Rise to the Challenge?* He is an associate researcher of the ESRC Electricity Policy Research Group.

Qualifications

PhD (Cantab)

Teaching

Dr. Zhang is the Director of Marketing PhD Programme and the module leader of *Consumer Behaviour* and *Strategic Environmental Sustainability*.

Research

- Strategic Marketing
- Consumer Behaviour
- Innovation Management
- Energy Markets
- Complexity Science
- Simulation and Modelling

Other activities

- Researcher, the Intelligent Modelling & Analysis Research Group, School of Computer Science, University of Nottingham
- Associate Researcher, the ESRC Electricity Policy Research Group, University of Cambridge
