

## Dr Joseph Hardwicke PhD MB ChB FRCS(Plast.)

Lecturer in Plastic Surgery

Reproduction, Genes and Development

### Contact details

School of Clinical and Experimental Medicine  
The Medical School  
University of Birmingham  
Edgbaston  
Birmingham  
B15 2TT  
UK

### About

Joseph is the first Lecturer in Plastic Surgery to be appointed by the University of Birmingham, and is also a Speciality Registrar in Burns and Plastic Surgery at the University Hospitals of Birmingham NHS Foundation Trust.

Joseph has published over 50 peer-reviewed papers, including review articles in the field of Burns and Plastic Surgery. His current research interests include the molecular pathogenesis of cleft palate repair, burn wound assessment and the systematic review of the current available evidence in Plastic Surgery.

He is a keen educator and regularly teaches trainee doctors on areas related to Plastic Surgery, as well as being an Advanced Trauma Life Support (ATLS) Instructor.

### Qualifications

- FRCS (Plast.)
- PhD
- MRCS (Eng.)
- MRCS (Ed.)
- MB ChB

### Biography

Joseph Hardwicke qualified MB ChB from the University of Sheffield in 2000. He completed basic surgical training, obtaining MRCS in 2004, and then specialising in the field of Burns and Plastic Surgery. He then undertook a period of research as Healing Foundation Research Fellow at Cardiff University School of Dentistry, with the award of PhD in 2009 for his thesis "Polymer therapeutics to modify cellular responses in impaired human wound healing". He subsequently became a Speciality Registrar in Burns and Plastic Surgery in the West Midlands Deanery and has continued his specialist training throughout the region with experience in Microsurgical Reconstruction, Burns & Trauma, Skin Cancer, Head & Neck Surgery, Paediatric Plastic Surgery and Hand Surgery. He was awarded FRCS (Plast.) in 2013.

Joseph has research interests in the field of Plastic Surgery focussing on the pathogenesis of cleft palate healing and development, as well as clinical research in the assessment of burns and cutaneous blood supply using state-of-the-art dynamic thermography. He also is interested in assessing the best evidence available to Plastic and Reconstructive Surgeons, publishing systematic reviews to promote best standards of practice.

He has received awards to support his research as well as being winner of the Society of Academic and Research Surgery (SARS) Jackson Prize, Sankey Research Prize and co-author for the Douglas Murray Prize in Plastic Surgery in the West Midlands. He has also received an International Research Prize from the International Society of Polymer Therapeutics.

### Teaching

Joseph is a current Royal College of Surgeons Advanced Trauma Life Support (ATLS) Instructor, teaching trauma doctors of all levels, as well as lecturing on topics in Burns and Plastic Surgery to medical students and trainee doctors.

### Research

- Laboratory Research in cleft palate healing and development.
- Clinical Research in the assessment of burns, non-invasive cutaneous blood-supply and the systematic review of evidence in Plastic Surgery.

### Other activities

- Speciality Registrar in Burns and Plastic Surgery, West Midlands Deanery.
- Honorary Research Fellow, Birmingham Children's Hospital.
- Research Associate, Birmingham Institute of Paediatric Plastic Surgery (BIPPS).
- Trainee Representative for Burns and Plastic Surgery, West Midlands Deanery.
- Full registration with the General Medical Council: 4713098.
- Member of the Royal Colleges of Surgery of England and Edinburgh.

- Trainee member of the British Association of Plastic, Reconstructive and Aesthetic Surgeons (BAPRAS).
- Member of the Higher Education Academy.
