### About

Deborah White is Professor of Dental Public Health and Director of Education and Senior Welfare Tutor in the School of Dentistry.

Her research interests centre on dental epidemiology and health services research. She has contributed to five major UK surveys of dental health, which have been funded by the Department of Health.

### Qualifications

- Fellow of Higher Education Academy 2005.
- Postgraduate Certificate in Learning and Teaching in Higher Education 2002.
- PhD Dental Public Health 2000.
- Master in Community Dental Health 1991.
- Diploma in Dental Public Health Royal College of Surgeons 1989.
- BDS 1976.

### Biography

Deborah White qualified with a BDS from the Victoria University of Manchester in 1976 and following experience in general dental practice and industrial dentistry, worked for many years in the Community Dental Service. Following a period of part-time study, she was awarded a Diploma in Dental Public Health from the Royal College of Surgeons in 1989 and a MCDH from the University of Birmingham in 1991.

Deborah joined the University of Birmingham in 1993 as a part-time researcher and moved on to become a full time member of staff in 1999. She completed her PhD in 2000 and, as Head of Dental Public Health, has research interests in dental epidemiology and health services research.

Deborah undertakes clinical teaching and clinical work in the salaried dental services in Birmingham. She also has a keen interest in dental team training, having been an examiner for the national dental nursing certificate as well as having a quality assurance role with the University of Birmingham BSc in Dental Hygiene and Therapy.

### Teaching

- [Dental Surgery BDS \(/undergraduate/courses/med/dental-surgery.aspx\)](/undergraduate/courses/med/dental-surgery.aspx)
- [Dental Hygiene and Therapy BSc \(/undergraduate/courses/med/dental-hygiene-therapy.aspx\)](/undergraduate/courses/med/dental-hygiene-therapy.aspx)
- MSc in Advanced General Dental Practice.

### Postgraduate supervision

Deborah is interested in supervising doctoral research students in the area of Dental Public Health, in particular:

- Primary dental care services.
- Interface between primary and secondary dental care services.
- Dental epidemiology.

If you are interested in research in any of these broad areas, please contact Deborah on the contact details above.

### Research

Child Dental Health Survey 2013 – a national study of children's dental health in England, Wales and Northern Ireland. This is being undertaken by a consortium including the Office for National Statistics and other Dental Institutions. This is the fifth in a series of studies which provide a picture of the changing and improving oral health in children.

Adult Dental Health Survey 2009 – a national collaborative study of the current status of dental health of UK adults. This study is the fifth in a series of national dental surveys carried out every ten years since 1968. These surveys have provided an important picture of the improvements in oral health throughout the UK population.

Career progression and practising location of dentists – work has been undertaken to look at West Midlands' dentists and the location of their practice and graduation. In addition factors affecting their choice of type and location of job have been identified. Geographical Information Systems have been used to identify the influence of dental schools on the practising locations of dentists. This builds on work that Deborah undertook for her PhD using GIS as a tool to analyse dental information.

Referral practices – work has been undertaken to investigate patterns of patient referrals from primary to secondary dental care and to identify relevant patient and dentist factors which are linked to high and low referral rates.

## Other activities

- Honorary Consultant, Birmingham Community Healthcare NHS Trust since 2007.
- Honorary Senior Dentist, Combined Community Dental Services, Birmingham Community Healthcare NHS Trust since 2000.
- Chair, Central Committee for Dental Academic Staff, British Dental Association since 2011 and member of committee since 2001.
