About

Steven Vaughan researches the legal profession, corporate finance and environmental law. He spent almost a decade as a solicitor in the City of London advising multinational companies, governments, the UN and the World Bank.

As an academic, Steven has given advice to the European Parliament and worked with the British Standards Institute to develop the world's first publicly accredited standard for companies on the regulation of nanotechnologies. In 2012, Steven gave a talk at the Hay Festival on controlling risks to the public from nanotechnologies. A recording of his talk can be heard here on the [Hay Festival website \(http://www.hayfestival.com/p-4651-steve-vaughan.aspx?skinid=16\)](http://www.hayfestival.com/p-4651-steve-vaughan.aspx?skinid=16) and downloaded as a podcast. He is currently an ESRC Future Research Leader, working on a funded 3 year project that explores the nature and extent of advice provided by corporate lawyers.

Feedback and office hours

Dr Vaughan is on study leave in 2015.

Qualifications

- 2005 – [current]: Solicitor of the Senior Courts of England & Wales
- 2008 - 2014: PhD, Cardiff University (part time)
- 2007 – 2008: MSc in Social Science Research Methods, Research and Graduate School, Cardiff University
- 2002 – 2003: Diploma in Legal Practice, Nottingham Law School
- 1999 – 2002: MA(Oxon) Jurisprudence, Corpus Christi College, Oxford University

Biography

Steven did his law degree at Oxford University and then worked as a solicitor in the City for 9 years, first with Freshfields Bruckhaus Deringer and then with Latham & Watkins. While in practice, he advised clients on environmental risks arising from the merger and acquisition of multinational corporations and on leveraged and project finance deals.

Steven has previously held lectureships at Cardiff University and the University of Bristol. He joined Birmingham Law School in September 2013. While at Cardiff he was presented with the 2012 'Enriching Student Life Award'. At Bristol, he won the Faculty of Social Sciences and Law award for Outstanding Teaching.

Teaching

- Introduction to the Study of Law (LLB)
- [Company Law \(/schools/law/courses/llb/modules/llb-company-law.aspx\)](/schools/law/courses/llb/modules/llb-company-law.aspx) (LLB)
- [Banking Law \(/schools/law/courses/llm/modules/LLM-banking-law.aspx\)](/schools/law/courses/llm/modules/LLM-banking-law.aspx) (LLM)
- [Regulation of the Legal Profession \(/schools/law/courses/llb/modules/llb-regulation-of-the-legal-profession.aspx\)](/schools/law/courses/llb/modules/llb-regulation-of-the-legal-profession.aspx) (LLB)

Postgraduate supervision

Steven would welcome approaches from students interested in doctoral study in the following broad areas:

- regulation of the legal profession, lawyers and lawyering (in particular on legal ethics, diversity and legal education)
- corporate finance, company law and corporate governance
- environmental law (in particular on new technologies, contaminated land and chemicals regulation)

He has previously supervised Joanne Hawkins, whose thesis considered public engagement opportunities for communities affected by fracking.

Research

Steven's research interests lie broadly in regulation and governance of three fields: the legal profession, corporate finance and environmental law. His work to date has explored the role of environmental solicitors on corporate finance deals, the regulation of business innovation in the context of new technologies, the framing of land use

and redevelopment via the contaminated land regime, the shaping of EU chemicals law and the management of diversity in large law firms. He is keen to take a variety of approaches to his work and has experience of empirical data collection and analysis.

Steven has given advice to the European Parliament and worked with the British Standards Institute to develop the world's first publicly accredited standard for companies on the regulation of nanotechnologies. He is currently an ESRC Future Research Leader, working on a funded 3 year project that explores the nature and extent of advice provided by corporate lawyers.

Other activities

In the Law School, Steven is Director of Education in the Centre for Professional Legal Education and Training and the Director of Careers.

Away from the Law School, Steven Chairs the Joint Academic Stage Board and is on the Education and Training Committee of the Solicitors Regulation Authority. He also sat on the Steering Panel of the Legal Education and Training Review research phase (2010-2012).
