About

Louise specialises in the prevention of interpersonal violence. Her work primarily centres on intimate partner aggression and group and gang related aggression and addresses issues related to aetiology, risk assessment, intervention, primary prevention and policy change. She enjoys an international research profile which positively impacts upon practice, policy and service provision.

She is currently leading and co-leading a number of funded research projects. These include an ESRC funded project that explores the effects of prison visits on re-offending; a research, development and training project that promotes evidence based policing; and an evaluation of a local community based domestic violence perpetrator programme. Louise is also developing an international network that aims to provide a focus on male victims of intimate partner aggression and together with her co-editors has secured an international book series that advances offender rehabilitation.

Qualifications

BSc, MSc, PhD, C.Psychol, Forensic Psychologist

Biography

Louise is an internationally renowned academic and Forensic Psychologist who has specialised in the prevention of violence, specifically intimate partner aggression and group and gang related aggression. Having more than forty articles in peer reviewed journals, books and professional reports Louise enjoys an active research profile. Her commitment to the field is demonstrated by her involvement with external organisations. For example she is the Chair for the West Midlands branch of the national organisation BASPCAN (British Association for the Study and Prevention of Child Abuse and Neglect), a member of the International Family Aggression Society and International Society for Research on Aggression.

She is on the Editorial board of several international journals such as Partner Abuse, Child Maltreatment and the British Journal of Forensic Practice. She is also involved in starting up an international network that aims to provide a focus on male victims of intimate partner aggression. Louise has recently led several funded projects including an outcome evaluation of multi-agency screening of cases of domestic violence where children are present, an exploration of the sexual experiences of British urban youth, and an investigation of gang life in Birmingham.

In addition Louise is working on an ESRC-funded project that aims to explore the effects of prison visits on re-offending, which will provide a focus on crime reduction. Her reputation has led to prestigious organisations seeking her advice on violence related issues, such as the Scottish Parliament, British Council and West Midlands and Merseyside Police. Louise's co-edited book 'What works in offender rehabilitation: An evidenced based approach to assessment and treatment' was released in 2013 and is the first of several to be released in a Wiley series.

Teaching

Louise is the Deputy Director of the **Centre for Forensic and Criminological Psychology** (<http://www.birmingham.ac.uk/research/activity/psychology/forensic/cfcp/index.aspx>) and Director of the **Doctorate in Forensic Psychology Practice** (<http://www.birmingham.ac.uk/postgraduate/courses/combined/psychology/forensic-psych-practice-doctorate.aspx>) programme. This is a post graduate research programme.

Postgraduate supervision

Louise supervises several PhD students and Trainee Forensic Psychologists in areas of family violence and group/gang aggression. Interested students should consult the **Psychology PhD course page** ([/postgraduate/courses/research/psych/psychology.aspx](http://www.birmingham.ac.uk/postgraduate/courses/research/psych/psychology.aspx)) for further information about postgraduate study, funding opportunities and how to apply.

Research

Research Group

Centre for Forensic and Criminological Psychology ([/research/activity/psychology/forensic/cfcp/index.aspx](http://www.birmingham.ac.uk/research/activity/psychology/forensic/cfcp/index.aspx))

Research Interests

- Intimate partner aggression and violence/homicide
- Links between intimate partner violence and child abuse and neglect
- Aetiology of interpersonal violence
- Psychological informed risk assessment, prevention and intervention of various forms of violence and aggression
- Policy and service provision for family violence

- Group/gang aggression and criminality

[Listen to Louise's podcast 'What the evidence tells us about the nature of Intimate Partner Violence' \(MP3 - 9.15MB\) \(/Audio/news/dr-louise-dixon-podcast-intimate-partner-violence.mp3\)](#) or read the [podcast transcript \(/accessibility/transcripts/dr-louise-dixon-intimate-partner-violence.aspx\)](#).

Live Research Projects

Breaking the Cycle: Prison Visitation and Recidivism in the UK

A new research project funded by the UK Economic and Research Council (ESRC), undertaken by carceral geographer Dominique Moran and forensic psychologist Louise Dixon (both University of Birmingham, UK) will draw attention to prison visitation as an aspect of imprisonment which has already been demonstrated to improve the outcomes of released prisoners, but whose specific functionality is at present poorly understood.

This 3-year interdisciplinary project will provide a new perspective on prison visitation and its relationship to the highly topical issue of recidivism. Macro-level statistical analysis in parallel with innovative mixed-methods research into visiting facilities will identify the nature of this relationship and its socio-spatial context, informing policy towards visitation and the design of visiting spaces, and contributing to broader debates about prisoner rehabilitation and resettlement.

Keep up to date at: <http://carceralgeography.com/research/prison-visitation-and-recidivism/> (<http://carceralgeography.com/research/prison-visitation-and-recidivism/>)

Other activities

Affiliations

- HCPC Registered Forensic Psychologist
- Chartered Psychologist (British Psychological Society)
- Full member of the British Psychological Society Division of Forensic Psychology
- Fellow of the International Society for Research on Aggression
- Trustee of the British Association for the Study and Prevention of Child Abuse and Neglect
- Chair West Midlands BASPCAN branch
- Advisor to ADVIP (Association of Domestic Violence Intervention Programs)
- Eurogang Network Member
